EXPERIENCE

Web Developer Intern
Biztron Softech

📅 June-24 – July -20   📍 Mylavaram

- Designed and implemented a Social Media Application
- Leveraged React.js, Node.js, MongoDB, and Express for seamless user experience.

PROJECTS

Bank Management System
HTML, CSS, JavaScript, JSP, JDBC, Oracle

📍 Personal Project

- Developed a responsive interface with HTML, CSS, and JavaScript, allowing users to access banking services seamlessly.
- Implemented user authentication, enabling secure login and signup functionality.Enabled users to perform transactions such as money withdrawal, deposit, and balance inquiries, with actions restricted to authenticated users.
- Integrated an Oracle database using JDBC to securely process and store transaction histories, ensuring data integrity and security.

Recipe Application
MERN Stack

📍 Personal Project

- Developed a Recipe Application using React.js, Node.js, Express, and MongoDB, allowing users to manage and explore recipes seamlessly.
- Implemented features like user registration and login, enabling authenticated users to add, save, and manage their recipes.
- Enabled users to create new recipes, save favorite recipes, and edit their own recipes with a secure and user-friendly interface.

Social Media Application (X Clone)
MERN Stack

📍 Group Project

- Developed a Twitter-like Social Media Application using the MERN stack with user authentication, followers, and real-time notifications.
- Built the backend for a Social Media Application with secure user authentication, post creation, likes, and comments.
- Developed the frontend of a Social Media Application to enable user interactions, posts, and notifications.
- Created a scalable backend for a Social Media Platform supporting user posts, comments, and follow relationships.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**: Amazon Web Services (AWS)
- **DSA**: SmartInterviews
- **TechA MERN Stack Developer Certification**: Infosys Springboard
- **Programming essentials in python**: CISCO

ACHIEVEMENTS

- Secured 3rd place in a one-day Data Science Hackathon organized by Brainovision Solutions India Pvt. Ltd.
- Awarded the North South Foundation (NSF) Scholarship for academic excellence and merit-based achievement.

SKILLS

Programming Languages:

C, Python, Java, HTML, CSS

Libraries / Frameworks:

JavaScript, JDBC, Servlets, JSP, React, Node.js, Express.js

Tools / Platform:

GitHub, VS Code, Apache Tomcat, Postman

Databases:

Oracle, SQL, MongoDB

EDUCATION

B.Tech in Computer Science
Lakireddy Bali Reddy College Of Engineering (CGPA: 9.202)

📅 NOV 2022 – APRIL 2026

Intermediate [MPC]
Sri Viveka Junior College (Percentage: 96.7%)

📅 NOV 2020 – APRIL 2022

Secondary Education
Sri Chaitanya High School (Percentage: 98.6%)

📅 NOV 2019 – APRIL 2020
